Golden Gate Canyon State Park

Backcountry Camping

*Please pick up a copy of the park map and
brochure for additional park information.*

Backcountry Regulations

All park statutes and regulations apply.

- All fires are prohibited in the backcountry.
- All trash must be packed out.
- Camping is permitted in designated areas only, with a maximum of six people and three tents per site.
- Pets must be leashed at all times while in the park.
- Removing or damaging any natural or historic object is prohibited. This includes picking wildflowers.

Backcountry Camping Fees

Tent site: \$8.00/night
(up to 6 people in 3 tents)

Shelter: \$8.00/night
(up to 6 people)

Park Pass: A valid daily parks pass or annual parks pass is required on all vehicles in the park.

Registration and Information

Please fill out the information on both the blue camping permit and this attached registration form. Tear off the form at the dotted line and deposit the completed form with the payment envelope. Keep this brochure for your information.

Thank you.

| 1st night | _____ |
| 2nd night | _____ |
| 3rd night | _____ |
| 4th night | _____ |

*Please **check out** at the visitor center as you leave. Thank you and enjoy your visit.*

Attention Backcountry Campers

You share this area with wildlife, including black bears and mountain lions. To help avoid conflicts with wildlife, please follow these simple precautions:

1. Do not store food in your tent. Food should be stored in a “bear bag” at least 125 - 175 ft. from your tent and suspended from a tree 10 - 15 ft. from the tree trunk. Cook stoves and other cooking utensils should be stored away from the tent preferably in the “bear bag”.
2. Do not wear the clothes you cooked dinner in to bed. The smell from your dinner will have seeped into your clothes and could attract wildlife to you while you are sleeping in your tent.
3. Keep a clean campsite. Food scraps and other trash will attract wildlife into your campsite. “Bear bag” trash overnight and PLEASE –pack it out.
4. Do not feed any wildlife. Feeding wildlife, including squirrels and chipmunks, can make them dependent on people and can result in equipment damage.

Thank you for helping to keep wildlife wild.
